- *Thank you & please continue these public meetings – very informational & very inspirational.*
- *Looking forward to more in-depth information.*
- *I could not hear at the Beaver Creek Breakout. Too close to people.*
- *Did not think the break away groups gave enough chance to voice our concerns.*
- *Hard to address positive and negative without knowing more information about options.*
- *Session is too limited to the alternatives in meeting demand and not in other mechanisms to control the appetite.*
- *The Beaver Creek facilitator knew absolutely nothing about the subject. Bad news!*
- *Need much more of this. No talk about root causes – or very little – e.g., population over-consumption etc. And what of other users, e.g., wildlife.*
- *Thank you.*
