Budget Highlights

- Executive Summary Narrative Pages i - x

Budget Overview

The Rivanna Water and Sewer Authority provides wholesale drinking water and wastewater treatment services for the City of Charlottesville and the Albemarle County Service Authority (ACSA). An FY 2019-2020 budget of \$36,167,000 is proposed to strategically provide these water and wastewater services in a financially responsible manner for our customers and the community. The FY 2019-2020 budget proposes an increase of \$1.72 million in Operating expenses and an increase of \$1.17 million in Debt Service charges for a total budget increase of \$2.89 million, or 8.68% above the FY 2018-2019 budget. Annual charges for the City are proposed to increase 3.4% (\$491,200), and 9% (\$1,511,600) for the ACSA.

The proposed budget includes \$19,221,000 for Operating expenses and \$16,946,000 for Debt Service charges. Operating expenses include Personnel costs (staff salaries and benefits), General Services costs (professional fees, utilities, insurance, permits, and data and voice communications), and Operation and Maintenance costs (chemicals, building repairs, equipment maintenance, and technology). Debt Service charges represent 47% of our budget, and provide funding to construct and renew our major infrastructure including water and wastewater treatment plants, pumping stations, piping systems and reservoir facilities.

In the Urban Rate Centers, Operating rates are proposed to increase:

- \$0.025 per 1000 gallons (1.2%) for water
- \$0.223 per 1000 gallons (10.39%) for wastewater

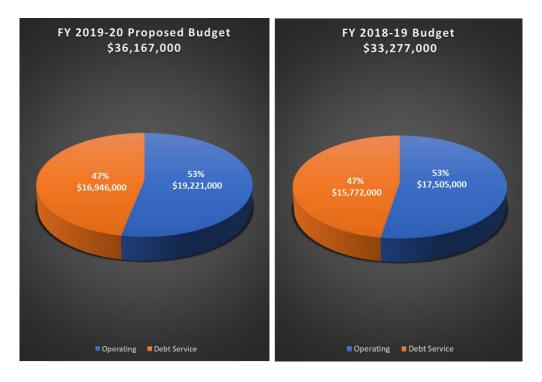

Debt Service charges for the City are proposed to:

- Increase 6.95 % for water
- Decrease 0.16 % for wastewater

Debt Service charges for the ACSA are proposed to increase:

- 4.46 % for water
- 12.94 % for wastewater
- 14.73% as a composite Operating and Debt Service increase for water and wastewater services in the Non-Urban Rate Centers.

Overall, annual charges for the City are proposed to increase 3.4% (\$491,200), and 9 % (\$1,511,600) for the ACSA. A comparison of the FY 2019-2020 budget with the FY 2018-2019 budget is shown below:

The FY 2019-2020 budget proposes an increase of \$1.72 million in Operating expenses and an increase of \$1.17 million in Debt Service charges for a total budget increase of \$2.89 million, or 8.68% above the FY 2018-2019 budget, as shown below:

Proposed budget increases will support existing and planned water and wastewater programs to effectively address the regulatory and service requirements of our growing community. A brief description of those programs follows:

1. Strategic Plan Implementation

This budget supports the implementation of our six Strategic Goals. It continues our efforts to attract, retain and reward exceptional employees, while providing essential enhancements to our safety program. Operational optimization and dependable infrastructure are also fundamental aspects of this budget.

2. Granular Activated Carbon (GAC) Filter Operations

Our recently completed GAC systems have been doing a great job removing organic material from the water to prevent formation of undesirable disinfection byproducts at five of our drinking water treatment plants. We will continue to monitor the service life of the GAC material under differing raw water conditions and operating procedures to optimize the treatment process.

In addition, recent EPA investigations of emerging manmade contaminants called per- and polyfluoroalkyl substances (PFAS), indicate GAC filters remove these contaminants. We recently tested raw water from our reservoirs and did not find any PFAS. However, we will continue to consider PFAS reduction in our service life optimization assessment for the GAC media.

3. Urban Drinking Water Management

Water supply, reliability and resiliency will be improved by:

- Renovating and increasing drinking water treatment capacity at the Observatory plant
- Renovating our largest drinking water treatment plant at South Rivanna
- Acquiring easements for a pipeline to connect the South Rivanna and Ragged Mountain Reservoirs, and completing a one-mile long section of this pipeline on the Birdwood property
- Updating our Risk and Resilience Assessment, and our Emergency Response Plan, as required by the federal America's Water Infrastructure Act of 2018

4. Non-Urban Drinking Water Management

Water supply, reliability and resiliency will be improved by:

- Renovating and increasing drinking water treatment capacity at the Crozet plant
- Modifying the Beaver Creek Dam to comply with new regulatory requirements, and replacing the raw water pumping station
- Updating our Risk and Resilience Assessment, and our Emergency Response Plan, as required by the federal America's Water Infrastructure Act of 2018

5. Urban Wastewater Management

Our recently completed Odor Control systems have been doing an effective job reducing odors at the Moores Creek wastewater treatment facility, as well as in the wastewater piping and pumping stations serving the Crozet area. The new Rivanna Sewer Pumping Station and tunnel have helped to essentially eliminate sanitary sewer overflows from our system, despite the record amount of rainfall in 2018.

6. Instrumentation Systems

Use of complex instrumentation systems continues to grow as we leverage technology to achieve operational efficiencies. Additional support is programmed to calibrate and maintain new wholesale meters and their data transmission system, calibrate water treatment plant meters, and replace existing wastewater meters.

7. Personnel

a. Merit Pool

A 3% merit pool for our employees has been included in the budget to remain competitive in the utility workforce marketplace.

b. Health Insurance

Based on recommendations from our insurance consultant, a 2% increase in health insurance premiums has been included.

c. Additional Positions, in Priority Order:

- 1. <u>Construction Inspector</u> Major construction projects are scheduled to begin in late 2019 to renovate the Observatory and South Rivanna Water Treatment Plants. An additional Inspector is needed to support those projects, as well as other projects in our CIP, and in a more cost-effective manner than through the use of inspection services provided by engineering consultants.
- 2. <u>Laboratory Chemist</u> An additional chemist is needed in our laboratory to complete the increasing number of analyses required annually. Testing for total organic carbon levels in our new GAC filters (over 550 samples/month), as well as for urban water quality, and reservoir raw water sampling programs have significantly increased the workload for our laboratory staff. This additional position will support the increasing analytical loads that the Laboratory is experiencing as a result of increased regulatory and process operation requirements.

Actual Water and Wastewater Flows

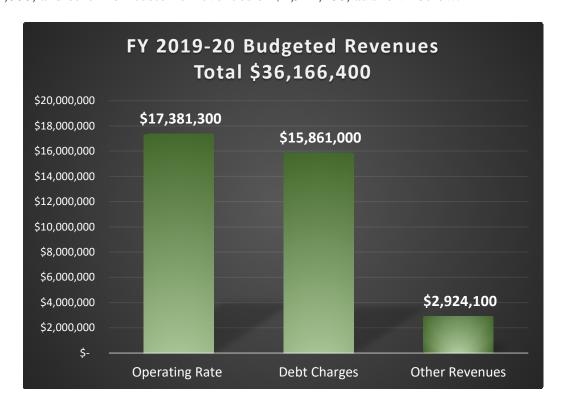

Actual water and wastewater retail flows reported by the City and ACSA are used to allocate the Urban Area operating rates and charges. Based on FY 2018 actual retail flow data, the allocation for Urban Wastewater flow shifted one percent (\$101,000 = \$73,000 Operations + \$28,000 Debt Service) between the two customers, while the allocation for Urban Water was unchanged.

Allocation of flows (based on retail flows):

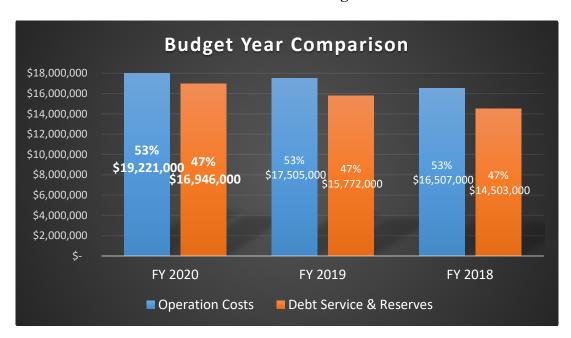

| | FY 2020 | FY 2019 |
|-----------------|----------------|----------------|
| City Wastewater | 50% | 51% |
| ACSA Wastewater | 50% | 49% |
| City Water | 51% | 51% |
| ACSA Water | 49% | 49% |

Revenues & Expenses

Revenues for FY 2020 are driven by Operating Rate revenues of \$17,381,300, Debt Service charges of \$15,861,000, and other non-customer revenues of \$2,924,100, as shown below:

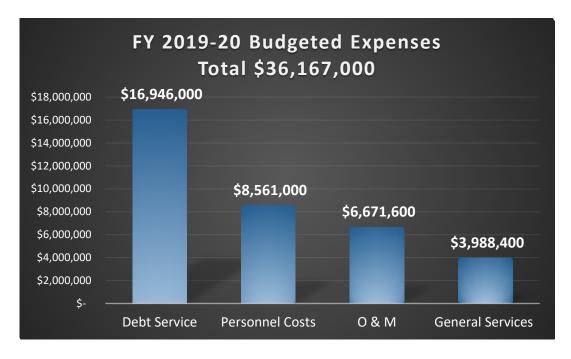

The Authority's overall ratio of Operating expenses and Debt Service costs are similar to the last several years, with Operating expenses representing roughly 53% of the total budget and Debt Service costs being 47% of the total, as shown below:

Expenses are largely driven by four major categories. Debt Service costs related to capital expenses are \$16,946,000. These expenses are estimated to increase \$1,174,000 over the current year to support recent and future major projects including the Birdwood Water Line, Water Treatment Plant Upgrades, Beaver Creek Dam and Pump Station Modifications, and Crozet Wastewater Equalization Tank.

Personnel and Benefit costs are the second largest expense with \$8,561,000 in estimated costs. Costs for Operations and Maintenance, which includes chemicals, building repairs, equipment maintenance, IT/SCADA, supplies and materials will total approximately \$6,671,600. General Service costs, which includes professional fees, utilities, insurance, permits, and data and voice communications, are anticipated to cost \$3,988,400, as shown below:

A summary of the major cost changes compared to last year follows, and a detailed line-by-line comparison is provided in **Appendix 8** for the Authority as a whole.

| | Line Item | N | lotable <u>ltems</u> | Ch | Budget nange over Prior year |

Debt Service & Capital

Debt service needs for the Capital Improvement Plan (CIP) are included in the budget request for the coming year. The overall FY 20-24 CIP totals \$97.2 million, a decrease of \$56.6 million as compared to the FY 19-23 CIP. There were \$51 million in completed and removed projects, a \$13.8 million reduction in existing projects, and a \$8.2 million increase in new and expanded projects. A more detailed look at the new and adjusted costs can be found in the proposed FY 2020 – FY 2024 CIP, which is a separate document and can be reviewed at http://www.rivanna.org/financials-and-procurement/.

The table below shows the changes in estimated project costs reflected in the CIP:

| P : 40 4 | 2019-2023 Adopted <u>CIP</u> | Projects Completed | New or Additional <u>Project Costs</u> | 2020-2024 Proposed <u>CIP</u> | Change \$ | Change <u>%</u> |
|-----------------------------------|------------------------------------|-----------------------|--|-------------------------------------|-----------------------|-----------------|
| Project Cost Urban Water Projects | \$88,382,485 | \$(30,559,700) | \$3,679,155 | \$61,501,940 | \$(26,880,545) | -30% |
| Urban Wastewater Projects | 30,924,151 | (12,558,500) | (3,612,670) | 14,752,981 | (16,171,170) | -110% |
| Shared Projects | 3,421,000 | - | (825,000) | 2,596,000 | (825,000) | -32% |
| Non-Urban Projects | <u>31,174,400</u> | <u>(7,933,400)</u> | <u>(4,888,000)</u> | 18,353,000 | (12,821,400) | -70% |
| Total Project Cost Estimates | <u>\$153,902,036</u> | <u>\$(51,051,600)</u> | <u>\$(5,646,515)</u> | <u>\$97,203,921</u> | <u>\$(56,698,115)</u> | -58% |

The Authority has programmed into the FY 2020 budget charges that fund the additional debt service anticipated by the proposed CIP. Cumulatively, the Authority has built 33% of future debt service costs into the rates for all rate centers for FY 2020. This is done by using the CIP as a guide for future debt needs to include an average charge increase over that five year period. This helps to prevent the large spikes in charges for any given year in which new debt is <u>actually</u> issued - effectively leveling the impact on charges. For example, Urban Water current charges have nearly 31% of the needed future debt service <u>revenues</u> already built into the charges to cover the total needed for the next five years (\$2.14 million in annual debt service is estimated to be needed in the next 5 years, and \$742,300 will already be programmed into the charges). This would require the remaining \$1.6 million to be included in a debt service charge increase over the next four years to fund the Water projects within the CIP.

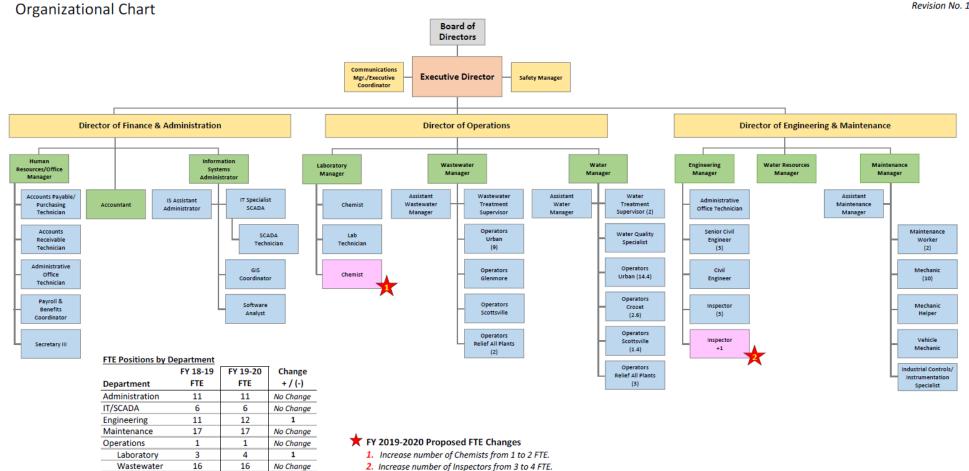

| | | Next Five Years | |
|--------------------|---|--|--|
| | Annual Estimated NEW Debt Service related to 5- year CIP New Debt | New Debt Service Cost built into FY 2020 Rates | Percentage of Debt Service in proposed FY 2020 Rates |
| | ** ** * ** ** | *= • • • • | • |
| Urban Water | \$2,391,700 | \$742,300 | 31.0% |
| Urban Wastewater | \$386,300 | \$230,300 | 59.6% |
| Rural Rate Centers | \$456,200 | \$90,925 | 19.9% |
| | \$3,234,200 | \$1,063,525 | 32.9% |
