McIntire  
keeps you in  
the recycling  
“loop”

Recycling rigid plastics and flexible  
plastics is now easier than ever!

Check out this easy guide for  
details!

### Plastic Bottles & Containers

Plastic Bottles & Containers are ridge plastic #1 - #7. This includes water bottles, jars, cups, storage containers, and more.

### Plastic Bags & Film Packaging

Plastic bags and film packaging is a soft, flexible plastic used in many grocery, bread, zip-top & dry cleaning bags. It's also used in packaging paper plates, bathroom tissue, diapers, etc.

Note: Do not include biodegradable bags, pre-washed salad bags, frozen food bags, or material that has been painted or glued. Make sure bags are clean and dry.

# PLASTIC BOTTLES & CONTAINERS [rigid]

Plastics # 1- #7 now classified as RIGID PLASTIC BOTTLES & CONTAINERS

- NO Styrofoam of any kind
- NO Hazardous material bottles/containers

**REMEMBER TO**  
Rinse or wipe clean  
containers and bottles
