Western Virginia Regulatory Section
NAO-2006-03002, 06-V1574 (Ragged Mountain Reservoir)

Rivanna Water & Sewer Authority
Attn: Mr. William I. Mawyer, Jr. P.E. - Executive Director
695 Moores Creek Lane
Charlottesville, Virginia 22902-9016

Dear Mr. Mawyer:

This letter is in reference to your request for extension of Department of Army Permit Number NAO-2006-03002 for impacts to waters of the United States associated with the expansion of the existing Ragged Mountain Reservoir (RMR) as listed on the Department of the Army Permit project description. The project is located in Albemarle County, Virginia.

We acknowledge your request and grant the extension of the original permit. As such, your permit is now valid until June 3, 2023. All other conditions of the original permit remain unchanged. Please be advised that all conditions of the original and modified Virginia Water Protection Permit become conditions of this authorization.

Should you not complete all impacts to waters of the U.S. by the June 3, 2023 expiration date, we may require you to submit a new joint permit application for the remaining impacts. In addition, please be aware that should you propose additional impacts to waters of the United States, you will need to perform a new wetland delineation for Corps' verification prior to conducting any impacts to waters.

A copy of this letter is being furnished to Ms. Shana Moore, Virginia Department of Environmental Quality, Glen Allen, Virginia.

Please obtain all necessary State and Local authorizations for the proposed work. Should you need further assistance or have any questions, please contact Vincent D. Pero at (434) 973-0568 or Vincent.d.pero@usace.army.mil.

Sincerely,

A handwritten signature in black ink, appearing to read "Jason E. Kelly", is written over a printed name and title.

Jason E. Kelly, PMP
Colonel, U.S. Army
Commanding
